To Our Valued Customer,

First and foremost, we would like to take this opportunity to thank you for your continued loyalty and support. We hope that you and your loved ones found only good health and fortune in 2023.

As your cable service provider, we will continue to do our best to keep cable services at a reasonable cost. At the end of each year, we negotiate the lowest rates possible with each and every station. The outcomes of these negotiations determine the annual cost of our cable services. Unfortunately, there is generally an annual increase of cost per subscription from majority of the stations. You will notice the 2024 increase of cable prices on your payment coupons. 2024 internet rates will NOT increase.

Please review GENERAL TERMS AND CONDITIONS OF SERVICE for all information.

Last but certainly not least, the team of Wire Tele-View would like to once again thank everyone who continues to support our family owned and operated business. From our family to yours, we wish you a happy and safe holiday season!

Sincerely,

The Wire Tele-View Family
